MEMORANDUM

ADMINISTRATIVE FILE
HSC - ~~Dept.~~ Dept.
Bureau of Labor
Statistics

TO: Sas. Baron
FROM: Abraham Waiaa
RE: B.L.S. wage survey of wholesaling operations.

April 29, 1958

The Bureau of Labor Statistics is planning a wage survey of wholesaling at the request of the Wage-Hour Division of the Department of Labor. The purpose of the survey is to obtain a picture of wages in this major segment of industry to determine the impact of the Fair Labor Standards Act on this industry. No occupational wage data will be presented; the study will consist solely of frequency distributions by specified class intervals in certain major industrial groups of this industry. Wage information will be requested for all non-supervisory employees, excluding outside salesmen. Separate data will be shown for the following groups: inside sales personnel and office staff; and all other non-supervisory employees.

The survey will cover merchandise wholesalers, agents and brokers, and assemblers of farm products. The following types of wholesaling will be excluded from the survey: sales branches and sales offices of manufacturing and mining companies; independent incorporated sales subsidiaries of manufacturing and mining companies; and petroleum bulk stations.

In addition to wage descriptions for the employee groups listed above, the survey will present data by both geographic region and by metropolitan area and non-metropolitan area.

The scope of the study, as indicated above, is dictated by the funds to be made available to the B.L.S. by the Wage-Hour Division, and by the purpose of the study, which is geared directly to the needs of the Wage-Hour Division. This explains the absence of occupational wage information and thereby diminishes its utility for us.

The data will probably relate to the payroll week on or about June 15th.

Dear Karl,

You may be interested in the enclosed agreement in connection with your forthcoming survey which we discussed over the phone yesterday. I hope you find it helpful.

Very truly yours,

Abraham Weins,
Economist
